PRESIDENT'S COMMENT

Andrew McEwen FNZIF
President, NZ Institute of Forestry
president@nzif.org.nz

Nominations for 2012/14 NZIF Council

Nominations for the next Council and for two vacancies on the Board close in just over three weeks (on Monday 13 February). There are still not enough nominations to fill the positions available, let alone hold an election. I believe that the need for elections demonstrates an active, interested and responsible professional association. Let's make sure that NZIF can claim to be such an association by ensuring that there are more (many more?) nominations than the places available and that we can hold elections for all positions with good choices from which members can select the next Council.

Personalised communication from NZIF

You will have noticed more communications from NZIF addressed to you personally. Sorry to disillusion you,

but we are not actually separately putting your name in each email we send. We are using a facility in the membership database that does it for us.

The database has provision for both a first name and a preferred name. We are using the preferred name where you have supplied one; otherwise we use your first name. So if your name is Tom Thumb Jones and you prefer to be addressed as Thumb rather than Tom, hop into the database and make sure you have it in the preferred name field. If you can't remember how to get into the database, just ask.

NZIF 2012 Conference

► Engineering Value Growing & Harvesting Forests for Novel Wood Structures

New Zealand Institute of Forestry
- Te Pūhaki Ngāherehere o Aotearoa Incorporated -

GOLD SPONSOR

2012 NZIF AGM and Conference

The theme for the 2012 NZIF Conference is: *Engineering Value – Growing and Harvesting Forests for Novel Wood Structures.*

Date: Sunday 1 July to Wednesday 4 July. A CPD workshop and the NZIF AGM will take place on the Sunday. The conference on the Monday and Tuesday and a field trip on Wednesday.

Venue: University of Canterbury, Ilam Campus, Christchurch.

GOLD SPONSOR

Conference website now available

The 2012 Conference website is now up and running with information being loaded as it comes to hand www.nzifconference.co.nz. Check it out for initial details of the venue and programme – also details of sponsorships.

NZIF BUSINESS

Call for nominations for NZIF Council and Registration Board

A call for nominations for the next NZIF Council and for two forthcoming vacancies for the NZIF Registration Board has been emailed or posted (to those without email) to all NZIF Members eligible to make nominations (all members who have paid their 2011/12 membership fees except student members). The notice and nomination forms are also available on the NZIF website (under <About NZIF><2012 NZIF elections>).

Nominations for Council

Nominations are called for the positions of President, Vice President, Secretary, Treasurer and six Councillors to make up the NZIF Council to serve from the earlier of 1 June 2012 or the 2012 NZIF AGM until the earlier of 31 May 2014 or the 2014 NZIF AGM.

Those nominated must be Honorary Members or Retired Members or Registered Members or Members or Associate Members of the Institute, but Retired Associate and Associate Members may only be nominated for the position of Councillor and only if they have been a member of the Institute for at least five years at the time of nomination (see Article 47). Only one Retired Associate or Associate Member can be elected as a Councillor. The procedure if more than one is in the six highest polling nominees is set out in Article 59.

Nominations for Registration Board

The terms of Registration Board members Mr Don Hammond and Mr Peter Gorman terminate on the earlier of 1 June 2012 or the 2012 NZIF AGM.

Nominations are therefore called for the following vacancies:

1. One Retired Registered or Registered Member of the Institute. In the event of more than one nomination, a postal vote will be held in which only Registered Members will be eligible to participate;
2. One Retired (but not Retired Associate) Member or Registered Member or Member of the Institute. In the event of more than one nomination, a postal vote will be held in which all members except Student Members will be eligible to participate.

The four-year term of those elected to fill the vacancies will begin on the earlier of 1 June 2012 or the 2012 NZIF AGM and will end on the earlier of 31 May 2016 or the 2016 NZIF AGM.

Registration Board members receive attendance fees and reimbursement of expenses.

General information about nominations

Each nomination must be made by no fewer than two NZIF members who may be any category of member except Student Member.

Nominations must be in the hands of the NZIF Secretary no later than **5:00 pm on Monday 13 February 2012** by sending to one of the following contacts:

Postal:

New Zealand Institute of Forestry
PO Box 10-513
The Terrace
WELLINGTON 6143

Email: admin@nzif.org.nz

Emailed nominations do not need signatures, but the nominee and nominators will be contacted to confirm their agreement.

In the event that an election is needed for any position, candidate information will be sought from each nominee. It is expected that ballot papers will be distributed no later than Thursday 1 March 2012 and that the ballot will close no later than Friday 30 March 2012.

The NZIF Articles of Association can be found on the NZIF website (www.nzif.org.nz, click on <about NZIF> <Constitution>).

Too many members still have to pay their subscriptions

Good to see another three members have sorted out their 2011/12 subscriptions in the last week. **But there are still 38 of you out there yet to pay (13 Associates, five Graduates, four Retired and 16 Members)**. If you have not paid, you have missed out on the latest issue of the NZ Journal of Forestry (a really good one it is too). If you are not sure if you have paid or not, rather than ringing Jay (the NZIF Administrator), the easiest way to check is to log-in to your member dashboard through the NZIF website and click on “account” in the left-hand side menu (although I suspect some of you may need to ask Jay to reset your password first). If you think you have paid, go back into your own records and tell Jay (admin@nzif.org.nz) exactly when and how you paid.

And remember that the 2012/13 invoices will be out soon, so if you don't want a two year bill, better pay now.

SUBMISSIONS

Murray Parrish (murray.parrish@chh.com) is Submissions Coordinator. NZIF Members or local sections considering making submissions (even on what appear to be local issues) should advise him of their plans. Council can assist with the cost of making submissions (contact Murray for details).

[Back to Contents](#)

LOCAL SECTIONS

Local section contacts can be found on the NZIF website (www.nzif.org.nz).

CANTERBURY SECTION

You are invited to the next local NZIF meeting:

When: Wednesday 29 February at 6:00 pm – drinks and nibbles followed by a short AGM, then a talk by Simon Rapley (NZ Redwood Co)

Topic: ‘Redwood in New Zealand’

Where: Lecture Theatre F3, School of Forestry, University of Canterbury

RSVP: Please confirm your attendance to Mark Bloomberg (Secretary/Treasurer) by email by Monday 27 February (mark.bloomberg@canterbury.ac.nz).

PACIFIC FORESTRY SPECIAL INTEREST GROUP

[Back to Contents](#)

STUDENT'S SECTION

PhD in Forest Modeling Complexity

We are looking for a motivated PhD student to work on a modeling project that investigates the potential trade-offs between managing forests for efficient provision of goods and services and adaptability in relation to global change factors and in the context of complex adaptive system theory. The project will be coordinated between the University of Quebec a Montreal (UQAM), Oregon State University, and the Swedish University of Agricultural Sciences, Umeå, Sweden; with the student being based at the UQAM, but travelling among the three universities. Required qualifications include a basic training in forestry, forest ecology, and forest economic and a strong background in quantitative sciences and modeling. To apply or for further information, send a letter of interest outlining your suitability and motivation, a CV, and a list of references to Klaus Puettmann (Klaus.Puettmann@oregonstate.edu), Christian Messier (messier.christian@uqam.ca) or Jon Moen (Jon.Moen@emg.umu.se). The candidate's acceptance will depend upon successfully obtaining a scholarship from the Forest Modeling Complexity program (<http://www.fcm.uqam.ca/index.asp?lang=en>).

Study at the New Zealand School of Forestry at University of Canterbury in 2012?

It is business as usual at the School of Forestry, and we still have places available for first-year Bachelor of Forestry Science and Forest Engineering students in 2012. Surveys tell us that many of our students first become aware of the School by talking to our graduates or others working in the forestry sector. Please continue to encourage any high school leavers you know, who have not yet made up their mind on a university course, to consider a forestry degree at the University of Canterbury. Students with some work experience also do very well in forestry.

Forestry graduates are in high demand. For example, this year, forestry companies started interviewing final-year students here at the School in August. All of the graduating students have jobs, including two in Australia. Our graduates work in such diverse areas as forest growing, harvesting and roading, processing, marketing, environmental or research. And the skills they learn (technical forestry skills, science and management) are very transferable to other industries.

One comment from a survey of our current first-year students was: "I know many people from my school who would have loved to do forestry if they knew about it." So please continue to spread the message about opportunities for forestry professionals. Students can enrol online. If anyone is interested in discussing whether a forestry degree is the right option for them please email Jeanette.Allen@canterbury.ac.nz or bruce.manley@canterbury.ac.nz

ADVERTISEMENTS

The NZIF has no view on the service or product sought or advertised. Follow up any item directly with the advertiser, not with NZIF. A charge may be imposed, depending on the nature of the advertisement. If you respond to an advertiser, tell them that you saw it in the *NZIF Newsletter*.

ERNSLAW ONE LTD, FORESTRY PLANNER, GISBORNE

Ernslaw One is a forest owner and manager with offices and forest estates throughout NZ. Applications are invited for the position of Forestry Planner based in Gisborne.

The purpose of this position is to carry out forestry planning and provide technical support for the North Island forest estate. Reporting to the Land & Resource Manager, responsibilities will include accountability for:

- forest operations technical support
- regime analysis
- forest genetics, including company strategy, seed and nursery contracts
- forest health
- research and development.

Serious consideration will be given to applicants with:

- a tertiary qualification and/or relevant forest planning experience
- knowledge of silvicultural practices and forest genetics
- being prepared to travel.

Ernslaw One Ltd is committed to ensuring a safe and healthy work environment. The successful applicant would require a pre-employment medical, drug and alcohol assessment.

A position description and application form are available from Bill Wheeler on (06) 868 0072 or email jobs@ernslaw.co.nz. **Closing date:** A covering letter, application form and CV should be submitted by **5:00 pm Tuesday 31 January 2012** to the above email address, or sent to the Land & Resource Manager, Ernslaw One Ltd, PO Box 2042, Gisborne 4040.

WAIARIKI INSTITUTE OF TECHNOLOGY POSITIONS

HEAD OF DEPARTMENT – RESOURCE MANAGEMENT

The School of Forestry and Primary Industries is seeking to appoint an individual who will lead and guide the on-going development of academic quality and provision in the area of Resource Management. This person will be responsible for the management and academic leadership of the department, as well as being a teaching and research position.

Applications close 9.00am 1 February

CHAIR OF FORESTRY 3 YEAR FIXED TERM

A playground for thrill-seekers and adventurers, New Zealand's temperate climate is also a haven for those seeking rejuvenation and relaxation in both their career and lifestyle. Our beautiful landscape includes vast mountain chains, steaming volcanoes, sweeping coastlines, majestic fiords and lush rainforests.

Nestled in the heart of New Zealand's geothermal area, lies Rotorua, a family friendly city renowned for its outdoor pursuits, tourism, history and culture. Now we at Rotorua's Waiariki Institute Of Technology invite you to consider joining our dynamic team in the position of Chair of Forestry, within our School of Forestry and Primary Industries.

This challenging opportunity is for someone looking for a place to consolidate their expertise and interest in the area of Forest Management or Wood Science and related research with a responsibility for teaching at undergraduate and graduate levels.

Waiariki is seeking an academic leader with a distinguished research record who has the ability to lead an academic team and research programmes to international standards. Experience in curriculum development is also essential.

This is an exceptional academic and lifestyle opportunity. Come experience for yourself and see what makes Waiariki Institute of Technology such an exciting place to work, learn and play.

The candidate's acceptance will depend upon successfully obtaining a scholarship from the Forest Modeling Complexity program (<http://www.fcm.uqam.ca/index.asp?lang=en>).

VISITING MSC IN FORESTRY LOOKING FOR PERMANENT EMPLOYMENT

I am in NZ until mid-February 2012 to meet the industry. I have six years of work experience, four in the field of forestry. Within forestry my primary fields of work have been silviculture, forest and carbon mensuration. I am familiar with the use of ArcGIS (ESRI) and carbon trading mechanisms (ETS and volunteer markets), and I know how the use of these can be beneficial to the forest industry. For my two years outside the industry, I worked as a business developer, promoting R&D and innovation projects with a total research budget of \$35 million. I am therefore skilled within the field of project management, administration and budgeting. Finally, I managed a research project in Guatemala, evaluating the natural regeneration of *Abies guatemalensis*. The work is published in the *Journal of Nature Conservation* 16 (2008) 146-156. My professional goal is to secure a permanent position where I can use some of above interests and skills. While working in this position a personal goal is to obtain NZ residency. For a full resume please write to: munkandersen@gmail.com. Rasmus Munk Andersen

PUBLICATIONS / MEDIA / NOTICES

RSNZ LECTURES

Unquenchable: America's Water Crisis and What to Do About It

Hamilton:

Wednesday 1 February at 6.00pm, Concert Chamber, Gallagher Academy of Performing Arts, University of Waikato

Wellington:

Wednesday 8 February at 6:00 pm, Victoria University, Rutherford House Lecture Theatre 1, Pipitea Campus

Christchurch:

Thursday 9 February 6.00pm, University of Canterbury (venue to be notified)

A lecture by Professor Robert Glennon, University of Arizona. Professor Glennon discusses the tragedy – and irony – of water in America. From the Vegas Strip to faux snow in Atlanta, from supersized bathrooms to mega-farms, from billion dollar water deals to big time politics and personalities, his acclaimed book *Unquenchable: America's Water Crisis and What To Do About It* has revealed the heady extravagances and everyday waste that are sucking the nation dry. America must make hard choices – and his answer is a provocative market-based system that values water as a commodity and a fundamental human right. His answers have a global context and resonate with the issues being faced here in NZ. There is no cost to attend, and bookings are not required. For further information contact: brent.clothier@plantandfood.co.nz

2012 BIOCHAR WORKSHOP: FROM SCIENCE TO STAKEHOLDERS

This is to be held on 9-10 February 2012 at Massey University, Palmerston North. See Biochar website: www.biochar.co.nz. Topics include: production technology; biochar economics; characterisation of biochars; biochar-soil-plant interactions; application case studies; and life cycle assessment. Authors who wish to submit a paper should send a one-page abstract to L.M.Lowe@Massey.ac.nz by 20 January 2012, indicating whether they wish to do a presentation and/or a poster.

MAF NEWS

- The December 2011 (Issue 37) of the Sustainable Farming Fund Newsletter is now available at: www.maf.govt.nz/sff. Topics include: The MAF Merger – Changes for SFF; SFF Now Open to Aquaculture Projects; Under \$25k Applications Due Soon; and Reporting Reminder.
- *To exporters of forest products to Turkey:* The ICPR relating to forest products for Turkey has been updated. Changes include: Additional declarations updated; Phytosanitary certificate no longer required for preservative treated logs, poles and sawn timber (HS Code 4403.10); Addition of sections for poles, reconstituted wood products, manufactured wooden products and bark; Amendment of 14-day certification timeframe; Prohibition of bark from some tree species; Removal of heat treatment requirements and specifications; Acceptance of phytosanitary certificate in lieu of ISPM15 certification for wood packaging; Other minor format and content changes. The ICPR is available at: <http://www.biosecurity.govt.nz/exports/forests/standards/turkey.htm>

- *To exporters of forest products to the European Union:* The ICPR relating to forest products for the European Union has been updated. Changes include: Phytosanitary certificates for the UK to be issued prior to shipment or include the inspection date; Addition of information regarding New Zealand being free of *Monochamus* spp. and *Cryphonectria parasitica*; Addition of Bulgaria and Romania as listed EU countries. The ICPRs are available at: Forest Products Export Standards – Phytosanitary Requirements of European Union, Bulgaria and Romania.

CFA YOUNG FORESTER AWARD

The Commonwealth Forestry Association (CFA) is pleased to announce the launch of the Young Forester Award 2012. The award is designed to support the professional development of foresters below 35 years of age through the provision of a short-term work placement in a country other than their own and consists of a designated placement combined with a bursary of between £1000 and £1500 to cover a stay of between three- and six-months (depending on the placement selected) with established and renowned forestry organisations in order to meet their professional interest. The hosts might be major timber companies, research organisations or NGOs but they all share the desire to support the development of the next generation of foresters.

Applications for the Young Forester Award are invited from students and young professionals below the age of 35 years on 30 June 2012 who are nationals of Commonwealth countries. Please note that as part of the CFA's continuing support to Small Island Developing States (SIDS), for the 2012 Young Forester Award we particularly encourage applications from foresters from SIDS within the Commonwealth. In addition we encourage applications from women, those with disabilities, and nationals of developing countries. See www.cfa-international.org/youth/yfa.php for more information.

LANDCARE TRUST CONFERENCE

The 'Landcare In Action' conference is being held on 29 February to 1 March 2012. This year's conference will take place in the pleasant surroundings of the Gallagher Academy of Performing Arts on the University of Waikato Campus in Hamilton. While the venue has excellent facilities and a delightful atmosphere, space is limited. Therefore the conference management team has put a strict cap on delegate numbers. To avoid disappointment we suggest you register now using our simple online registration system. This can be found by following the link from the conference page: www.landcare.org.nz/conference.

STUDY AT THE NEW ZEALAND SCHOOL OF FORESTRY AT UNIVERSITY OF CANTERBURY IN 2012?

It is business as usual at the School of Forestry, and we still have places available for first-year Bachelor of Forestry Science and Forest Engineering students in 2012. Surveys tell us that many of our students first become aware of the School by talking to our graduates or others working in the forestry sector. Please continue to encourage any high school leavers you know, who haven't yet made up their mind on a university course, to consider a forestry degree at the University of Canterbury. Students with some work experience also do very well in forestry.

Forestry graduates are in high demand. For example, this year, forestry companies started interviewing final-year students here at the School in August. All of the graduating students have jobs, including two in Australia. Our graduates work in such diverse areas as forest growing, harvesting and roading, processing, marketing, environmental or research. And the skills they learn (technical forestry skills, science and management) are very transferable to other industries.

One comment from a survey of our current first-year students was "I know many people from my school who

would have loved to do forestry if they knew about it.” So please continue to spread the message about opportunities for forestry professionals. Students can enrol online. If anyone is interested in discussing whether a forestry degree is the right option for them please email Jeanette.Allen@canterbury.ac.nz or bruce.manley@canterbury.ac.nz.

CHARLES FLEMING FUND – CALL FOR APPLICATIONS

The Royal Society of NZ is calling for applications for the following awards:

- Charles Fleming Fund – Senior Scientist Award
- Charles Fleming Fund – Publishing Award.

The closing date for applications is **31 March 2012**. Information on these awards, and application form are available on the Society’s website: <http://www.royalsociety.org.nz/programmes/funds/fleming/>

2012 LEONARD COCKAYNE MEMORIAL LECTURE TOUR

The Leonard Cockayne Memorial Lecturer for 2012 is Professor Kevin Gould, Professor of Plant Biology, School of Biological Sciences, Victoria University of Wellington. His presentation is entitled: “*Ever green but seeing red? Deciphering the palette of New Zealand’s flora*”.

Here is the itinerary for lecture tour (times and venues will be advised in the New Year):

- Hamilton: Wednesday 7 March
- Auckland: Thursday 8 March
- Nelson: Tuesday 13 March
- Otago: Thursday 14 March
- Wellington: Wednesday 21 March
- Hawke’s Bay: Thursday 22 March
- Rotorua: Tuesday 27 March
- Canterbury: Wednesday 28 March.
