

John Halkett moves to Northland

John Halkett has recently left the Editorial Board of New Zealand Forestry. John played a very active part in setting up the new-style journal which came into being in 1986. John brought to the journal an indigenous forestry and conservation perspective.

A graduate of the School of Forestry, University of Canterbury, he had wide experience in indigenous forest management with the Forest Service before joining the new Department of Conservation. This background was invaluable in ensuring the journal had a balance over the whole of forestry.

John Halkett

He also acted as Editor for two recent issues and was instrumental in bringing together the excellent issue on New Zealand foresters working abroad.

Regional Conservator

John was recently appointed the Department of Conservation's regional conservator in Northland. It is fitting that he fills this position for he has been long involved in this area. His book, 'The World of Kauri', written in 1986 with E.V. Sale, shows his deep love for these forests and for the region.

Although he will be missed as part of the Editorial Board, I am sure that his presence in Northland will benefit the local branch of the Institute of Forestry.

Congratulations and thanks, John.

Don Mead
Editor

MEMBERSHIP

The posting out of annual subscription invoices generally heralds another round of resignations. Often they are from people who have been non-financial for the previous year, but it is always disappointing to see members ending their association with the Institute.

At the last two meetings of Council the following membership changes have been accepted.

Resignations

S. Adamson	D. Allen	R. Blackmore
N. Clyne	A. Fuller	A. Hughes
F. Johnson	W. Lindsay	A. Plummer
J. Riley	P. Robertson	B. Travers
J. Trevelyan	R. Yates	I. Black
J. Hawthorn	B. Douglas	I. Boyd
I. Whiteside		

Advancement to Associate Member

F. Martel	F. Gibson	J. Turland
R. Self	K. Lowell	M. McKenzie
S. Taylor	C. Turnbull	M. White
N. Woods	P. Handford	

Advancement to Full Member

J. MacKay	A. Laurie	G. Dolan
